

Pricelist Grob G 120TP

(January 2021 - English)

Art.Nr.	Discription	Price	
		without VAT	incl. 19 % VAT
100 001	Kit Grob G 120TP	3.319,33 €	3.950,00 €
	Scale 1:3, wingspan 3,44 m, length 2,81 m, highest quality of fiberglass and carbon fiber vacuum-sandwich-technology, white painted in the mold, incl. all frames in wood and airex, necessary linkages and screws		
100 002	Retractable landing gear set incl. brakes	2.142,86 €	2.550,00 €
	Retractable landing gear set, true to original with scale landing gear legs, established electric mechanics C50 from Behotec with strong 3S-engines, electric brakes plus controller and adjust board		
100 003	Option, landing gear legs power-coated in white	126,05 €	150,00 €
100 004	Push mechanism for cockpit	50,42 €	60,00 €
	Complete cutted aluminium parts and mounting material		
100 005	Cockpit set standard (not mounted and finished)	411,76 €	490,00 €
	The set contains the front cockpit panel with cockpit plate in glass fiber plastic, the two seats in glass fiber plastic, the two joysticks and all other applications in 3D print. The ground plate and the frame are made of balsa and plywood, central console in 3D print		
100 006	alternative Cockpit set de luxe (complete mounted and finished)	798,32 €	950,00 €
	All parts of the cockpit set standard are complete mounted and finished		
100 007	Scale accessory set standard	79,83 €	95,00 €
	The scale accessory set standard is manufactured in high resolution 3D-print process. It consists of one rudder antenna at the top, two rudder antennas left and right, one cover for the bottom of the wings, one antenna for the bottom of the fuselage and a ventilation cover in glass fiber plastic		
100 008	alternative Scale accessory set de luxe	184,87 €	220,00 €
	The scale accessory set de luxe consists of all pieces of the standard set, and additionally three antennas for the bottom of the fuselage and a pitot tube in mixed material of aluminium and 3D-print		
100 009	NACA-intakes	29,41 €	35,00 €
	The set consist of four NACA-intakes, two for the engine cowling and two beside the fuselage		

100 010	Scale lighting set	411,76 €	490,00 €
	Special adapted lighting set for the Grob G 120TP from innoflyer. The set consist of on LightDriver 5.0 lightcontrols, two LightDriver 3.0 lightcontrols, two combined beacon/position lights for the elevator, two beacon/position lights and two landing lights for the Winglets		
100 011	Single-Double-Exhaust	163,87 €	195,00 €
	Produced in stainless steel, special adapted for JetCat SPT10		
100 012	Exhaust dummies below	109,24 €	130,00 €
	Two pieces left and right produced in CFK. The Scale character of the model will be once more increased		
100 013	Kevlar Tank Kombi	168,07 €	200,00 €
	Kevlar tank especially manufactured and optimized for the Grob, with a volume of 2.6 litres for kerosine and 0.6 litres for smokeoil		
100 014	alternative Kevlar Tank 3,2 litres	151,26 €	180,00 €
	Optimized Kevlar tank without parting plane and 3.2 litres volume		
100 015	Scale Spinner	151,26 €	180,00 €
	Scale spinner developed especially for the Grob G 120TP in glass fiber plastic and aluminium ground plate		
100 016	5-blade prop	331,93 €	395,00 €
	24 x 23 5-blade prop from Falcon		
100 017	Safety bags set de luxe	247,90 €	295,00 €
	High-quality bags made of Cordura material. The set consists of two bags for the wings, and one bag for the winglets, the elevator with tube and the rudder		
100 018	Jetpilot from Pfanmüller	277,31 €	330,00 €
	Scale 1:3, incl. Helmet, oxygen mask and safety belts		
100 019	Clutch for gliders	37,82 €	45,00 €
	Special milled wood parts, holder for servo and aluminium clutch		
100 020	Transport board for fuselage	57,98 €	69,00 €
	Transport board for safety transportation of the fuselage
